

Education stakeholders,

In response to requests from some regions, we have now integrated Class Evaluation Summary features into ConEdLink.

When a sponsor has built its roster and indicates they are ready to close the class and submit it to the region for credit, ConEdLink will present the sponsor with five free-text fields where they can enter the information that they would've had to supply on the PA DOH EMS Class Evaluation Summary form.

Currently, completing this "eval summary" section is optional -- a sponsor can close a class and submit it to the region even if they leave the eval summary section blank. This is because our understanding is that submission of the eval summary information is not being enforced by all regions. We can easily make these fields mandatory if all ConEdLink regions agree that submission of this information should be mandatory.

There is currently no support in ConEdLink for submitting eval summary information retroactively. The features are only available for future rosters and for rosters that are currently open.

Wherever ConEdLink displays the class roster for review, it will also now display the eval summary section adjacently.

Please let me know if you have any questions or concerns about the new features.
