

Regional staffers,

When you log into ConEdLink and select the Sponsor tab, you will now have a way to email your sponsors via ConEdLink. You will see a new column of checkboxes that allow you to select all or any sponsors to receive an email. If you scroll down below the list of sponsors, you'll see the controls that allow you to compose and send your message.

Since ConEdLink syncs its data from the registry, this feature will allow you to email your sponsors without having to maintain your own list of email addresses.

Thanks to Ernie Powell at The Federation for requesting this new feature!
